Natarbora Onshore Geotechnical Investigation, Timor-Leste - LOT 3: Refinery/Petrochemical and Township
TENDER-RFB/247/MPRM-2026
ADDENDUM NO. 3
Date: 6 November 2026

This Addendum No.3 is issued to amend following items in the Request for Bid (RFB) in accordance with section 2, Instruction to Bidders (ITB) Clause 8.1.

Item	Section/Clause	As is the Original RFB	As amended in the Addendum No. 3
1.	**Section 6. Works' Requirements Page.115**	Terms of Reference (TOR) Natarbora Onshore Geotechnical Investigation Scope of Work, MPRM-PMU-34-TOR-001 Rev 1	MPRM-PMU-34-TOR-001 Rev 1 Section 3.5.6 is amended by this addendum as follows Minimum requirement The Contractor shall provide a minimum of four (4) operational geotechnical drilling rigs, of which not less than two (2) shall be crawler/track-mounted, self-propelled rigs. A fleet comprising four (4) or more crawler/track-mounted rigs remains fully compliant, and the use of alternative rigs is at the Contractor's option. Where the Contractor elects to do so, up to two (2) rigs may be of an alternative configuration (e.g. skid-mounted, modular, amphibious or wheeled) for locations where bidder considers crawler access is impracticable, provided that each alternative rig: (a) is a mechanically powered hydraulic rotary drilling rig. Manually operated or hand-driven rigs shall not count towards the minimum of four (4) rigs; (b) is capable of the drilling, casing, SPT, sampling and 100 mm continuous rock coring requirements of Section 3.5.6 for the boreholes allocated to it; (c) is supported by the information required under Section 3.5.6 and complies with the equipment ownership/lease and age requirements of Section 3; (d) is identified in the drilling rig deployment plan against specific borehole locations, with a justification of why crawler access is impracticable and a description of the transport, set-up and support arrangements at those locations.

Item	Section/Clause	As is the Original RFB	As amended in the Addendum No. 3
			Crawler/track-mounted rigs shall be deployed at all locations where crawler access is practicable.
